Chapter 24

Military Engineering Mandate(Israel, USA)

Mars 360 as a social system also relates to its value as a military system. By effectively using Mars placements to allocate military personal to appropriate environments that would entail sort of a virtue signaling for Mars, allows for a harmonious outlook regarding military expenditure. Each placement of Mars would infer an advantage to some extent, depending on the duty. For instance, since Mars in the first seal represents a lack of energy toward proper face to face communication, duties involving direct unfiltered commands would be carried out without hesitation. This placement infers an advantage for drill sergeants and ground leadership where constant blunt interaction is required in order drive home a command. By making this a requirement for a command-giving position, administration would be ensured of orders being given without hesitancy or fear on the part of the person giving them.

Mars in the second seal provides an advantage for aspects of the military that involves the use of hostile force. This placements gives an advantage to those who have to carry out orders that involve the unrestrained neutralization of an enemy target, along with the ensured survival of the personnel carrying out the mission. Because of a natural restlessness that this placement brings about, this placement makes well for foreign missions involving lots of variety and movement. This would likely be the standard ideal placement for general infantry assignments.

Mars in the third seal has an advantage since Mars places a lack of energy on personal survival instinct regarding one’s own health.

Therefore this placements infers an advantage for dangerous missions where the outcome regarding one own health would also provide some protection to other soldiers if their duty requires it. This placement is the standard for what constitutes a War hero.

Mars in the 4th seal would not be perfectly suited for combat duty, but would be standard for administration in support of the Military and also peacetime propaganda. This placement of Mars creates the highest form of nationalism and patriotism, even if it doesn't produce the greatest combat soldiers. All activities involving keeping morale high would be standard for this placement and would keep a nation together in terms of its outlook. Because of the lack of fear related to indirect speech, this placement of Mars finds an advantage in gathering support against an enemy.

Mars in the 5th seal would not do well in positions under authority. From a military standpoint, this type would be disadvantaged in dealing with the authoritative aspects of the military. There may be some independent research that this type could do to serve the military in some way. However, this is usually a mark of pacifism and would be advantageous in situations needed to keep a military out of War. This placement would be the key to diplomatic solutions from a military perspective.

Mars in the 6th seal would provide an advantage in terms of working out of view of others. It's important to note that this is also a pacifist outlook. Since this placement creates a social awkwardness and lack of energy toward one's appearance, this person would have an advantage

in duties that are more introverted in nature. Classified information would also have a greater deal of protection. All military scientific research that requires hours of private study would be of an advantage to the person influenced by Mars here. The technological cutting edge approach to garnering military advantage via hours of study would be standard for Mars in the 6th seal. In this manner, Mars in the 6th seal becomes a major asset to the Military. Important to note that this placement is not a war advocator even though it can perform the necessary research.

Under Mars 360, this allocation of the human condition to its rightful element can be correlated to how the Geneva convention decides the rules of war. A full expression of this human condition gives everyone a sense of freedom regarding how they feel the world should be. Under Mars 360, Mars's expression of pacifism would have the same right to exist as the Mars expression of conflict. This is how Mars 360 defines peace. It's important to remember that Mars 360 is trying to get every single person on Earth to feel that the world understands him. In achieving this, and allowing a certain level of expression, it prevents the oftentimes overwhelming backlash when the pendulum has swung for too long in one direction. A good analogy is how the federal reserve is designed to protect the market from black swan events, unforeseen circumstances causing disruption in the market, by controlling interest rates according to where they feel the market may be headed.

The presence of a Military according to Mars 360 wouldn't necessitate to War, nor would it necessitate to Capitulation. It will, however, be conducive to full human harmony because everyone would understand that the source(Mars) which drives conflict-acceptance is the same source that drives conflict-avoidance. There is

a certain balanced to be striked here which will make all parties very happy. It also provides cheques and balances within the military industrial complex between conflict advocates and peace advocates, as opposed to peace advocates operating outside and against the military sphere. This allows for resolution to trickle down to the rest of society. With an education program that distinguishes for Mars placement, one is left with a uniform element regarding preparing for society and being military prepared in a way that is compatible with everyone's Mars placement. Military involvement doesn't equate to War in this case. There is a certain sensitivity to the nature of Mars that needs to be maintained in order to stabilize the health of human perspective. A diplomacy first mandate allows for that particular Mars expression of conflict-avoidance to operate alongside the realm of conflict-acceptance and the military industrial complex.

Due to a possible correlation of Mars to foreign attacks, the Mars 360 observation program would be a useful investigation by military personnel. In this example pertaining to the United States, there have been 3 major attacks on US soil that provoked the US military into international conflict. All 3 have a major similarity pertaining to Mars that cannot be ignored. In all 3 attacks, Mars was in the 1st seal at the time they took place. Here are the charts for the 9/11 terror attack, pearl harbor attack, and the black tom explosion respectively. These are calculated using the exact time in which events happened.

We can see in all three charts, which are calculated with the exact time that the event took place, a shared common placement of Mars in the 1st seal shows up. Not only that, each attack took place when the moon was within the signs of Cancer and Leo. This is enough to warrant a further investigation. Mars 360 would even determine that a period of vigilance may be required during that timeframe. In my research, overall, the moon passing through the Cancer and Leo/Aquarius and Capricorn axis seems to also correlate to major catastrophic events taking place in the United States. Mars in the first seal however is the most interesting sign that seems to keep showing up around the time attacks take place. This would essentially equate to Mars 360 calling down fire from heaven.

The system of cheques and balances within the military framework keeps a balance between Mars's expression and human necessity. This

accommodation of peace-seeking zeal by the military allows for a country to keep its bearing with regard to its intention to sustain itself. As Mars 360 spreads, there would be more mutual understanding about the dynamics of the human condition as it relates to a military. It's important to recognize the military as already a natural expressive outlet for Mars, which is essential for the sustenance of civilian life. The Mars effect of restlessness gets a channel through military life by way of travel and movement, as that is often a requirement in military directives. Removing military altogether would also remove an effective channel for Mars expression. This would put societal stability in jeopardy as now the expression of Mars related to restlessness and need for constant change would find another way to assert itself. It would be easier for military construct to accommodate the expression of Mars that looks to avoid conflict and constant change than it would be for civilian life to accommodate the Mars expression of constant change and mobility.

Mars CCCLX

Mars 360, is a formulated and hypothesized global social accord ideally operable under the same principle as the Paris Climate Accord, that attempts to integrate all nations into a common cause. The Mars effect on human behavior inclines each individual toward certain predispositions that lend itself to fundamental outlooks which carries with it... a high degree of inflexibility. This inflexibility plays itself out in various political and social stances like socialism, pacifism, capitalism, liberalism, conservatism, libertarianism, etc, but is actually the result of Mars's permanent influence on the human brain. This gives rise to the idea that while certain stances are different in external display, they are at the same time fundamentally backed by the same source(to varying degrees of course)....which is Mars.

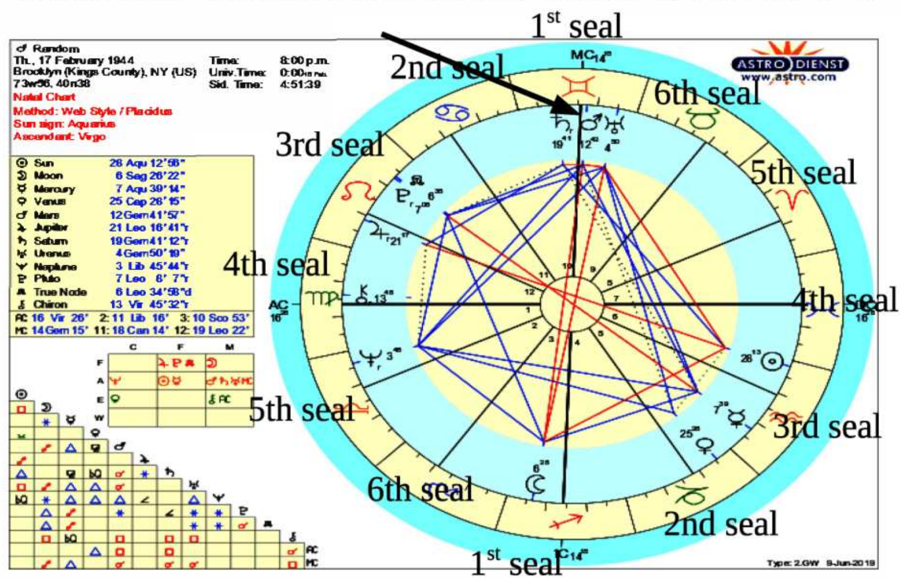

This influence manifests differently amongst the human population. Mars influences some to be antagonistic to different groups, others to be antagonistic to different individuals. It influences some to be antagonistic to change and others to stagnancy. It's all laid out in 6 different categories and allows for a wider perspective of the human condition, thus opening the door to understanding and improvisation. This construct allows the individual to navigate through life accordingly, adjusting his own behavior to the situation he faces.... catering to the human archetypes in his space according to the Mars number they wear.

Historically humanity has fostered a race-driven ethnocentric perspective. Mars 360, however, introduces the idea of the cosmic-driven perspective. Unlike qualities of ethnicity or nationality which bind peoples and groups together, Mars 360 introduces a way for humans to become cosmically driven, dividing themselves based on natal astrological factors such as where Mars was situated at the time they were born. This outlook fragments the entire human population into 6 cosmic races that are all defined by their natal astrological Mars position, putting humans into a segment in which everyone within that segment would share a similar personality trait and outlook. This ideally would override the ethnicity and nationality factors and bring the world under one construct and legal system, dissolving the boundaries of nationality.

In calculating this chart using western Astrology, we can reference the description of each seal at the top of the page, and then apply it to this random chart. In the above chart, we find Mars in the 1st seal. (arrow is pointing to it) So in going back to the very top of the page at figure 1d, its determined for the 1st seal to represent immediate environment, co-workers, neighbors, face to face direct communication, and the right hand. With Mars here we interpret this position as a natural inborn hostility and lack of energy toward neighbors, co-workers, and

face to face communication. Therefore, this person is categorized for that placement and conferred for all the services designated to deal with that placement. Throughout this person's life, he will be entitled to leniency with regard to working with other people, and face to face communication. Mandates will be passed so that this person doesn't have to over-exert himself in situations involving the careful handling of co-workers, neighbors, siblings, and face to face communication. These types would be marked as having capitalist conservative leanings.

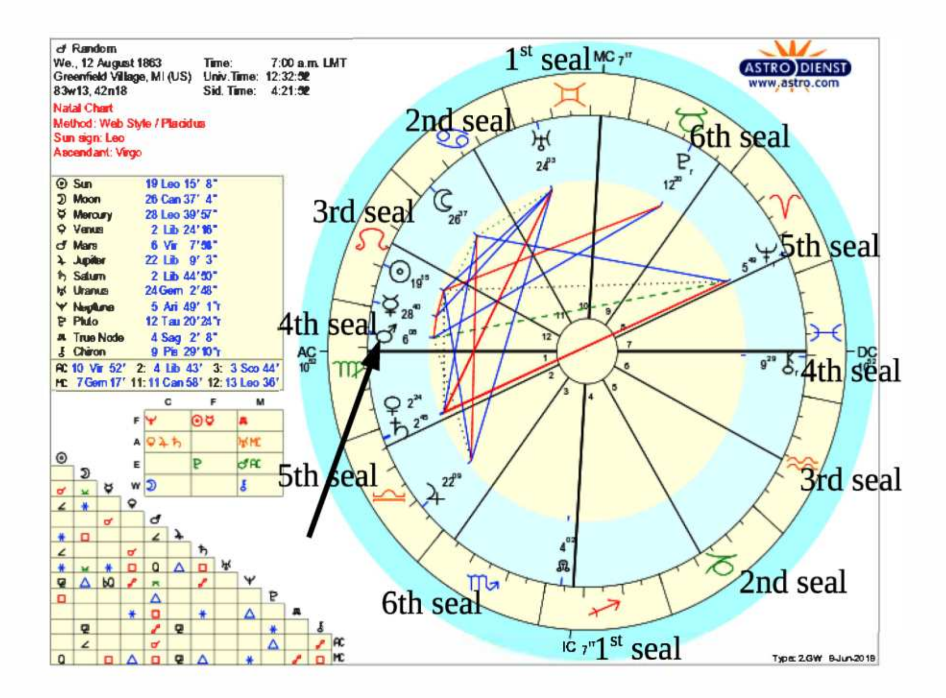

In calculating this chart using western Astrology, we can reference the description of each seal at the top of the page, and then apply it to this random chart. In the above chart, we find Mars in the 2nd seal. (arrow is pointing to it) So in going back to **Figure 1d**, its determined for the 2nd seal to represent homeland, home government, spouse, one's own children, rest, and listening. With Mars here we interpret this position as a natural inborn hostility and lack of energy

towards homeland, home government, spouse, one's own children, rest, and listening. Therefore, this person is categorized for that placement and conferred for all the services designated to deal with that placement. Throughout this person's life, he will be entitled to leniency with regard to dealing with homeland, home government, spouse, one's own children, and listening. Mandates will be passed so that this person doesn't have to over-exert himself in situations involving the extended and methodical valuing of those things. An example of the mandates issued to serve this placement would be passport privileges, time away from family not being full grounds for penalization in divorce court, longer recess hours for inmates, extended time away from classroom learning, and quiet time in places of work designated by law, roaming privileges in one's homeland. Free though would also be applied here. These types would be marked as having anti-government conservative leanings.

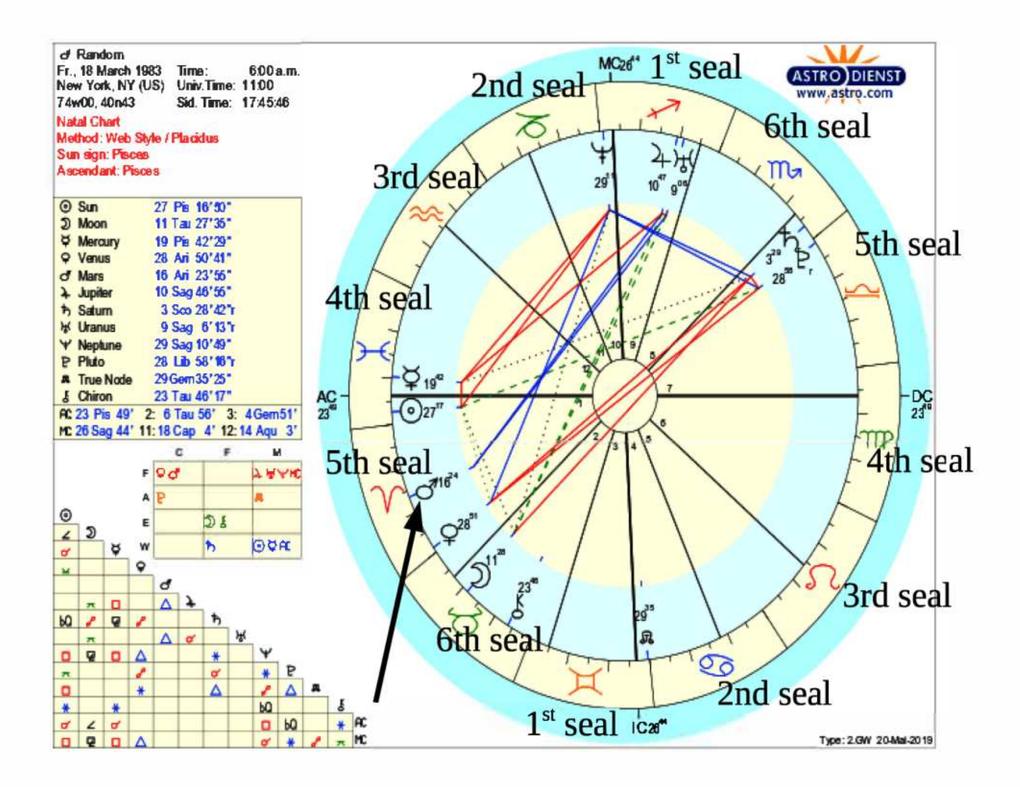

In calculating this chart using western Astrology, we can reference the description of each seal at the top of the page, and then apply it to this random chart. In the above chart, we find Mars in the 3rd seal. (arrow is pointing to it) So in going back to **Figure 1d**, its determined for the 3rd seal to represent physical bodily maintenance, exercise, diet, sex and physical attractiveness. With Mars here we interpret this position as a natural inborn hostility and lack of energy towards physical bodily maintenance, exercise, diet, sex, and physical attractiveness. Therefore, this person is categorized for that placement and conferred for all the services designated to deal with that placement. Throughout this person's life, he will be entitled to leniency with regard to dealing with physical bodily maintenance, exercise, diet, sex and physical attractiveness. Mandates will be passed so that this person doesn't have to over-exert himself in situations involving the extended and methodical valuing of those things. An example of the mandates issued to serve this placement would be the person being given less restriction on what he/she can put inside his/her own body. Laws making it illegal to be forced or intimidated into diet and exercise to lose weight would be considered. More leniency regarding pleasure seeking opportunities, such as the ones involving recreational drug use and consensual non-harmful sexual freedom. Bisexuality would get some protection. Also, rights to a sedentary lifestyle will be highlighted here. Because the physical body and its maintenance is tied to being sheltered or in a safe physical dwelling, freedom from having to be stuck at home or stuck at a geographical location would be granted to these types. These types would be marked as having Libertarian leanings and anti-government sentiments.

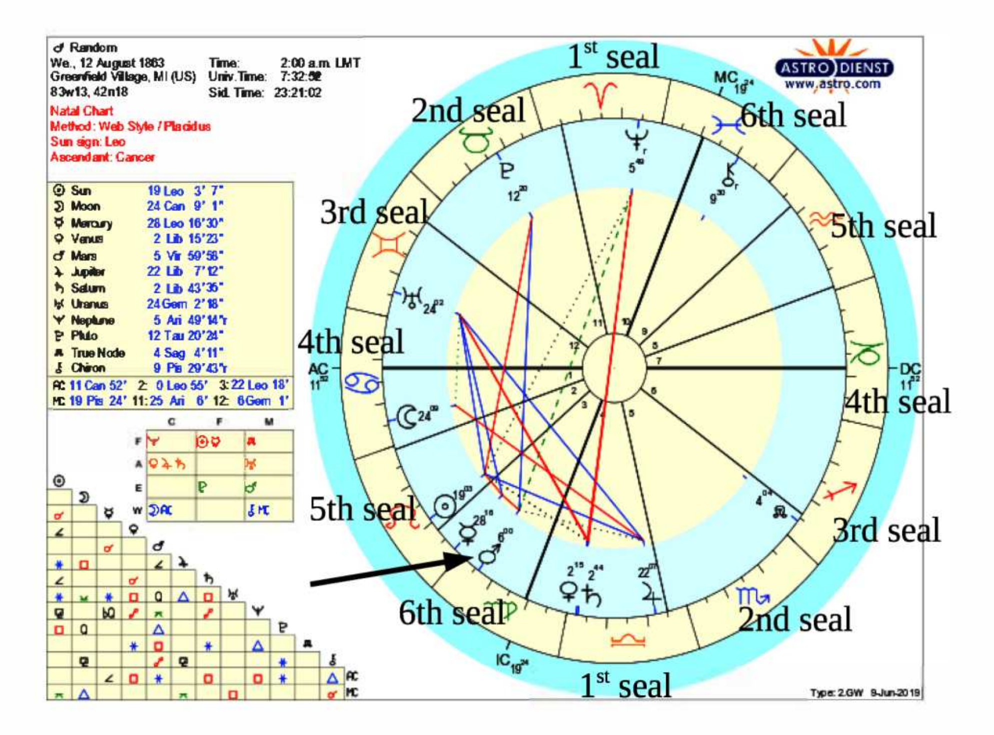

In calculating this chart using western Astrology, we can reference the description of each seal at the top of the page, and then apply it to this random chart. In the above chart, we find Mars in the 4th seal. (arrow is pointing to it) So in going back to Figure 1d, its determined for the 4th seal to represent indirect communication, choice of words, other people's cultural standards, discipline, restraint, integrity, self denial, God within, Soul, and the less fortunate. With Mars here we interpret this position as a natural inborn hostility and lack of energy towards those aforementioned. Therefore, this person is categorized for that placement and conferred for all the services designated to deal with that placement. Throughout this person's life, he will be entitled to leniency with regard to dealing with indirect communication, choice of words, other people's cultural standards, discipline, restraint, integrity,

self denial, God within, Soul, and the less fortunate. Mandates will be passed so that this person doesn't have to over-exert himself in situations involving the extended and methodical display of those things. An example of the mandates issued to serve this placement would be the person being given less restriction on matters related to indirect speech through various forms of media. Freedom of speech would be more applicable to this placement. Services would be sensitive to material ambition arising from a lack of energy to self-denial, which would lead to top priority for business loans. This placement would be granted some protection from over-exertion of cultural sensitivity regarding cultures not his own. Lies would be understood as Mars influenced and also be given a bit more leniency upon discovery. Also there would be limits on reading material as this placement points to dyslexia. These types would be marked as having nationalist conservative leanings.

In calculating this chart using western Astrology, we can reference the description of each seal at the top of the page, and then apply it to this random chart. We look for Mars, and find it in the above chart in the 5th seal. So in going back to **Figure 1d**, its determined for the 5th seal to represent authority figures and work. With Mars we interpret this position as a natural inborn hostility and lack of energy toward authority figures and work, so he's categorized for that placement and conferred for all the services designated to deal with that placement. Throughout this person's life, he will be entitled to leniency with regard to work under supervision and will have certain privileges when it comes to addressing status figures. These types would be marked as having Democratic Communist leanings.

In calculating this chart using western Astrology, we can reference the description of each seal at the top of the page, and then apply it to this random chart. In the above chart, we find Mars in the 6th seal. (arrow is pointing to it) So in going back to **Figure 1d**, its determined for the 6th seal to represent individual identity, EGO, distinct persona, DNA, regard for personal appearance, rectitude, and how others view them. With Mars here we interpret this position as a natural inborn hostility and lack of energy towards those aforementioned. Therefore, this person is categorized for that placement and conferred for all the services designated to deal with that placement. Throughout this person's life, he will be entitled to leniency with regard to dealing with individual identity, EGO, distinct persona, DNA, regard for personal appearance, rectitude, and how others view them. Mandates will be passed so that this person doesn't have to over-exert himself in situations involving the extended and

methodical display of those things. An example of the mandates issued to serve this placement would be the person being given less restriction on matters related to personal appearance. Extended time away from being seen would be required by law. It would be illegal to label these people in any way in terms of race, religion, creed, etc. All privacy laws would be protecting them to the fullest. Cultural identity exemptions would somehow be in effect. By law, these types would be not accountable to prevailing cultural identity standards related to their DNA and ethnicity. These types would be marked as having Democrat non-nationalist Liberal leanings.

Everyone on earth would fall under one of those 6 placements of Mars, either fully or partially. "Partially" depends on whether or not Mars is in the transition phase starting at the 24th degree mark of one sign and going into the 0th degree mark of the next sign. That period usually indicates a blend of the previous seal with the next seal. In that case, the Mars characteristics favored would be a decider on how to approach the subject regarding his Mars. Either way, every political perspective is now decreed as controlled by Mars and therefore worthy of observance and expression. Since Mars's influence is considered innate from birth with the person not having a choice on how Mars would influence them, all political ideologies arising from that are treated as a handicap by the prospective establishment. Being able to locate exactly who and how a person is affected allows mandates to be able to allocate the Mars required rights to exactly who would need them.

Mars 360 as a worldwide global phenomenon would be incumbent upon any advantages garnered by its adoption being a catalyst for others to even out the playing field. Because Mars 360 essentially
